## Homing Pigeons

G2 Clock Designed for UK Fanciers

**BENZING**

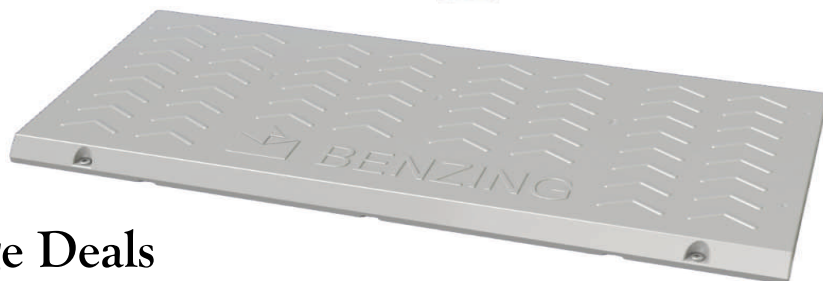

A name you can trust in pigeon timing systems

Benzing have been designing racing pigeon clocks since 1863 and in this high technology world of today they are still the leader in pigeon timing systems. Benzings ETS clocks use the latest tagging chip rings and they provide one of the most competitive, reliable and secure pigeon timing systems on the market today.

## Benzing ETS Hitag-S Pro Chip Rings

**Combi-Ring, Icom Ring or Standard Chip Ring**  
**The Benzing G2 and M1 Clocks work with them all**

**We can supply ETS Chips for the New RPRA approved Life Ring**

**Contact Jim at Homing Pigeons on 07799 640 711 or visit the website at [www.homingpigeons.co.uk](http://www.homingpigeons.co.uk)**

## The New INN For The 2011 Racing Season

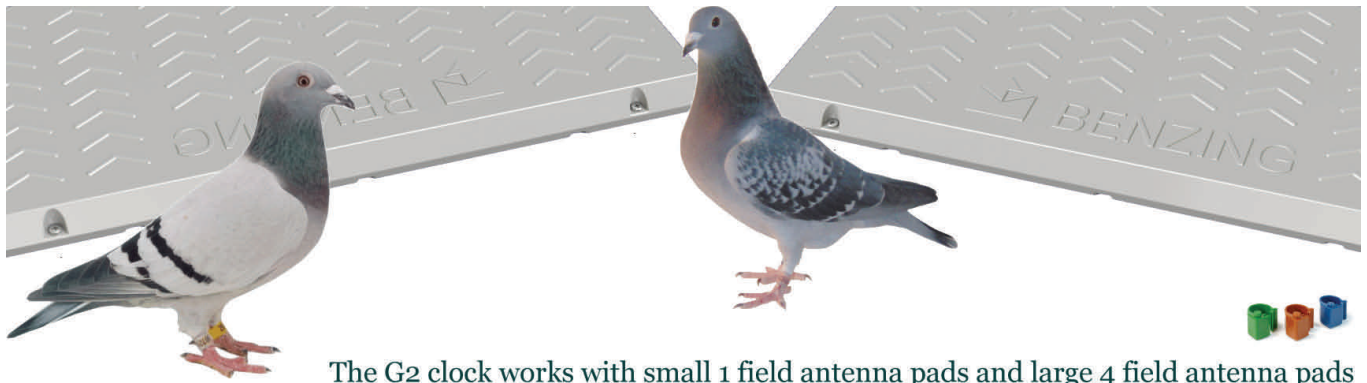

To compliment the G2 clock Benzing have introduced the continuous timing system for the loft that will continue to clock pigeons returning from any of the races while the fancier is away at the marking station with their G2

**£135**

When the clock is returned it will update with any new pigeon arrivals

With the G2 clock you can connect up to 5 off the Benzing 1 or 4 field antenna pads together. Or you can connect 2 controllers with 8 off the EFA antenna pads plus 3 off the 1 or 4 field antenna pads.

The G2 clock works with small 1 field antenna pads and large 4 field antenna pads
